---

It is right time now to apply ELON Posters into your outdoor campaigns! ELON Poster™ is the shining star between all technologies for ambient media. The movement and the light is well performed in the period when the days are shorter. It is very effective animated lighting device which gives to the standard static artwork another 2 dimensions. The lighting effect becomes much more visible, attracting the attention of passers-by for longer time then in summer months.

**ELON Posters are looked at. Not only seen!** . ☐ [ELON Technologies](#) , the leading world manufacturer of electroluminescent posters for advertising purposes, based in Prague (Czech Republic) is entering his 9th autumn/winter outdoor adverting season. ELON Posters traditionally took regular place in most innovative campaigns of the international brands such as Coca Cola, Milka, Nivea, Pilsner Urquell, Ford, Burger King, Iglo, Raiffeisen Bank, A1, Nespresso, T-Mobile, Jakobs Krönung, Orange, Vodafone, Adidas and many others,.especially in autumn and winter months.
